Quality Wood Finishing Products

### Beneficial Features

Heirloom Essentials® Fine Furniture Polish and Spotless Furniture & Glass Cleanser have been tested and proven to successfully work above and below Woodwright® brand varnish. Heirloom Essentials has been tested and is safe to use on all finishes, but should always be tested for compatibility. These products **do not contain silicone, wax or ammonia**, which means, it will not leave a film, waxy buildup or soften the varnish on your furniture. This gives you the ability to have your furniture refinished years from now, if you wish to change your color scheme or simply refurbish a family heirloom that has been passed down through generations.

### How It Works

Woodwright® Stains and Finishes has used its years of wood coatings experience to specially formulate Heirloom Essentials® Fine Furniture Polish and Spotless Furniture & Glass Cleanser to protect and preserve the beautiful luster of your solid wood furniture and cabinetry. We have chosen the most delicate cleansing agents and finest of oils to gently clean, moisturize and preserve wood and varnish. It's unlike any other cleanser and polish you've used. Proper furniture care is important not only to maintain the quality of your furniture, but ensuring that your environment is truly clean. Heirloom Essentials offers antibacterial Spotless Cleanser for everyday cleaning and fragranced Fine Furniture Polish to maintain the luster of your fine furniture.

# Spotless Antibacterial

## Furniture & Glass Cleanser

*Streak-Free Cleaning for Wood, Glass and Many Other Hard Surfaces*

Spotless Furniture & Glass Cleanser is a revolutionary water-based antibacterial cleanser that contains no ammonia. Its unique streak-free formulation makes it possible to clean varnished wood furniture, glass, mirrors and many other hard surfaces quickly and easily. Spotless Furniture & Glass Cleanser can be used alone or prior to polishing with Heirloom Essentials Fine Furniture Polish for an unbeatable shine! Use daily after meals on dining furniture to remove food residue and finger prints.

### Spotless Concentrate

The same great cleanser is now available in concentrate! Just add water. Save money by refilling your spray bottle for furniture and hard surfaces or spray mop for wood floors. 16oz concentrate refills an 8oz spray bottle 10 times!
